

FREE ROK WEATHER PROOF BLUE TOOTH OUTDOOR SPEAKERS

FREE ROK Speakers from Sound Appeal are a leap forward in outdoor speaker technology that can stream music from a Bluetooth device.

FREE ROK multiplayer cabinets are built to withstand extreme temperatures both hot and cold. The inert design of the speaker cabinets allow them to keep their beautiful finish despite, rain, sun, wind and or ice, year after year!

Built in 6.50" woofer driver can pump out strong deep bass while maintaining a high level of fidelity. The 1" dome tweeter keeps the highs smooth with no hint of harshness, and voice remains clear and articulate. The internal amplifier is a high efficiency Class D design with 60W RMS of output power.
